HARBOR HYDRATION - CAMPAIGN BRIEF
Prepared for a college athlete partner - Fall 2026

Brand: Harbor Hydration
Product: the Tidewater 24 oz insulated steel bottle, in slate blue
Campaign goal: show the bottle in the athlete's real training day.
Sport: soccer. The athlete appears throughout; the bottle is with her, not sold at her.

This brief describes what we want the post to feel like and what it must not do.
It is a starting point for the athlete's own idea, not a shot list.

TONE AND STORY

Tone: calm, focused, unhurried.
Energy: steady - no hype, no shouting.
Story: the quiet hour before practice, when the day is still hers.
Visual style: documentary, not commercial gloss.
Brand attributes: clean, honest, durable.

We would rather see one true minute than thirty polished seconds.

DELIVERABLE AND RULES

Deliverable: one 9:16 video for Instagram Reels, 15 to 30 seconds.
Do not show competitor bottles or logos.
Do not make health or performance claims about the bottle.

Budget and timeline are covered in the partnership agreement, not here.
Questions go to the partnerships inbox.
